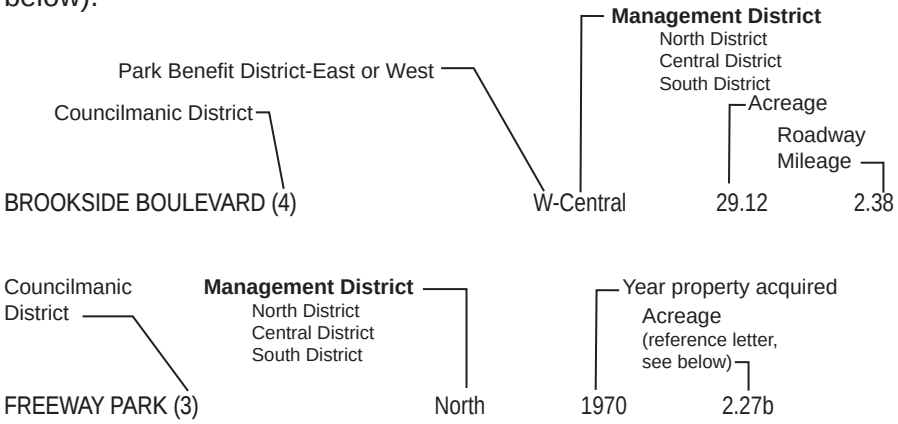
INTRODUCTION AND LAND ACQUISITION METHODS

INTRODUCTION

The purpose of this book is to provide the user with a current inventory and summary of park properties, recreation and park service facilities, landmarks, parkways, boulevards and former Commissioners.

In order to conform to state statutes and to provide roadway fund allocations, there are two benefit districts for boulevards and parkways: East and West. The System's previous East and West Park benefit districts for park areas have been consolidated into one benefit district. The city has been subdivided into three management districts for the care and maintenance of the system.

Each roadway represented in this book has been suffixed with the letter of the appropriate park benefit district and the name of the responsible management district; *e.g.*, E-North, W-Central, *etc.* (see example below).



Some of the park acreages are suffixed with lower case letters which represent the various ways that the property comes under the control of the Board of Parks and Recreation Commissioners (see example above).

a. Non-Park: Land owned by another City department not accepted as a park but maintained by the Board of Parks and Recreation Commissioners.

b. Leased: Lands owned by other agencies that are leased for parks or recreation use.

LAND ACQUISITION METHODS

Parks, parkways and boulevards or additions thereto may be acquired by any of the following methods:

1. GIFTS: An individual or corporate donor may claim a tax deduction for any gift to a municipality. The donor should consult his tax adviser for a determination.

2. PURCHASE: The City, through the Board of Parks and Recreation Commissioners, generally acquires fee simple titles, and recognizes easements which are in existence at the time of purchase.

3. CONDEMNATION: The City Council, acting upon recommendation by the Board of Parks and Recreation Commissioners, has authority to condemn land for parks, parkways and boulevards. In the case of acquisition by the benefit district assessment method, condemnation procedures must be followed.

4. TRANSFER: City-owned property other than parks, parkways or boulevards may be ordered transferred to some other public use by a two-thirds vote of the City Council.

5. DEVELOPER'S ALLOTMENT: The dedication of park land by subdivision plat according to "SUBDIVISION REGULATIONS," Code of General Ordinances as amended September 9, 1979.

6. COOPERATIVE AGREEMENT: City-owned property other than parks, parkways or boulevards that may be used for parks and recreation use by lease agreement or by memorandum of understanding.

Land, once it is acquired and dedicated for park, parkway and boulevard purposes, cannot be converted to other uses or sold except by a vote of the people amending Section 1004 of the Kansas City, Missouri, City Charter.

COMMISSIONERS

The 1892 City Charter authorized the mayor to establish the Board of Parks Commissioners and appoint its five members. In 1908 the Charter was revised and the Board was reduced from five to three members. Again, the charter was amended to return the Board to five members in 1999.

These commissioners served the city as public-spirited citizens for Kansas City. They believed advancing the park and parkway system would increase commerce by attracting families and businesses to settle in Kansas City.

"Our parks will do more to increase the value of property and attract people to our city than anything else."

James K. Burnham
Park Commissioner
Kansas City *Star* - 1898
